Preface

式，聚力共建大灣區一流高等教育生態，為國家及澳門培育更多心懷家國、愛國愛澳的優秀青年人才。

四十五年歲月崢嶸，四十五年薪火灼灼。城大的校史長卷上，深深鐫刻著幾代教育工作者的赤子初心與執著追求。立足新的歷史坐標，澳門城市大學將錨定國家“十五五”規劃宏偉藍圖，深度嵌入粵港澳大灣區建設全域，精準對接澳門“一中心、一平台、一基地”發展定位，秉傳承之初心、持創新之銳氣，凝心聚力、奮楫爭先。在人才培養上追求卓越，在學術創新上勇闖前沿，在區域協同上深化賦能，在國際合作上拓寬維度，以城大智慧助力國家發展，奮力續譜“明德博學、尚行致遠”的時代新篇！

“服務澳門，融入灣區，面向世界”的辦學使命，始終貫穿城大發展的每一個階段。學校致力構建融合澳門特色、中華文化與國際視野的教育體系，以大數據技術為支撐推動新型人文社科發展，為澳門、大灣區及國家培養兼具專業素養與實踐能力的應用型人才。面對澳門“1+4”產業多元發展策略及深合區建設機遇，大健康學院整合身體、心理、社會等多維度專業資源，深耕身心健康領域的教學與研究，通過政校合作推進產業可持續發展，精準培育大健康產業急需人才。城大始終緊跟國家及特區政府的教育發展方向，朝著“澳門特色、中國靈魂、國際視野”的卓越綜合性大學目標穩步邁進。

澳門，這顆鑲嵌在中國南海之濱的璀璨明珠，四百餘年中西文明在此交融共生，沉澱為獨具特色的文化寶庫，更鑄成連接葡語系及拉丁語系國家的重要橋樑。在全球人才競爭日趨激烈的新格局下，特區政府始終堅持“教育興澳，人才建澳”的施政理念，推進“教育、科技、人才”一體化發展，全力打造國際高端人才匯聚高地，著力培養兼具國家認同、社會擔當與全面素養的優秀人才，為粵港澳大灣區建設注入源源不斷的人才活力，助力國家構建具有全球影響力的重要教育中心。

彰顯大學在人文社科及工程學領域的特色與優勢；旅遊管理專業從學士到博士的全層次學位課程，均獲聯合國世界旅遊組織 TedQual 優質教育認證，其旅遊休閒管理學科更躋身軟科“2025 世界一流學科排名”全球第 37 位，特色優勢愈發凸顯。

時光荏苒，春華秋實。自 1981 年建校以來，學校始終秉持“明德、博學、尚行”的校訓精神，主動呼應國家與區域發展召喚，在時代浪潮中搶抓機遇，為國家培育了大批棟樑之才。值此校慶盛典，澳門城市大學全體師生懷揣著感恩之心，感謝黃景強博士、胡百熙博士、吳毓璘博士三位創辦人的高瞻遠矚，為學校奠定堅實根基；感謝歷屆校領導的遠見卓識與無私奉獻，引領學校不斷前行；感謝特區政府及社會各界的悉心關懷與鼎力支持，為辦學指引方向；更感謝全體師生同仁的勤勉耕耘與無悔付出，以學術之篤行深耕濠江沃土。

高等教育作為人才培養體系的核心樞紐，肩負著知識傳承、科學研究、社會服務與文化創新的時代使命，既是教育生態的頂端支撐，更是國家人才戰略的關鍵陣地。如今，高等教育的內涵正從傳統的知識傳授向創新引領深度拓展，轉變為塑造價值理念、拓展國際視野、完善人格素養的關鍵階段，在人類文明演進的進程中彰顯著日益重要的力量。而澳門始終將愛國愛澳教育置於核心位置，深耕國家認同教育，為“一國兩制”事業薪火相傳築牢根基。

以創新為驅動，以擔當踐使命。四十五年薪火傳承中，澳門城市大學始終立足澳門特色，為國家現代化建設進程注入獨特的澳門智慧動能。為精準響應社會對“終身學習、持續進修”的需求，學校特設立國際培訓與測試中心，積極探索優質高效的創新教學模式，系統優化特色學科佈局，開設緊貼行業實務需求的在職及專業培訓課程，為構建全民終身教育體系築牢堅實基礎。與此同時，學校主動打破傳統學科壁壘，設立榮譽班、“方班”等特色培養項目，構建起進階式精深培養體系，聚焦學術前沿領域開展專題研究，以“產學研用深度融合”的培養模式，著力培育可應對未來複雜挑戰的拔尖創新人才。面向粵港澳大灣區高等教育融合發展的重大歷史機遇，學校規劃在橫琴設立校區，開創跨境教育合作新範

弦歌不輟四十五年，立德樹人初心如磐。澳門城市大學的文脈可追溯至 1981 年創立的東亞大學，2011 年更為現名後，正式開啟“更名、改制、轉型、升級”的跨越式發展新征程。作為澳門五所具備“本、碩、博”全層次辦學資質的綜合性大學之一，城大始終扎根澳門、服務灣區，以培養應用型、實務型人才為己任，持續為城市發展與區域進步提供智力支撐。如今，學校辦學實力穩步提升：躋身泰晤士高等教育 2026 年度世界大學排名 601-800 位，“社會科學總論”、“工程學”兩學科成功進入科睿唯安基本科學指標數據庫 (ESI) 全球前 1%，

序言

Preface

Macao, a brilliant pearl set upon the shores of the South China Sea, has for over four centuries witnessed the coexistence and integration of Chinese and Western civilizations. Through this historical encounter, it has accumulated a distinctive cultural heritage and has become an important bridge connecting Portuguese-speaking and Latin-language countries. In the emerging global landscape marked by increasingly intense competition for talent, the Macao SAR Government has consistently upheld the governing philosophy of “invigorating Macao through education and building Macao through talent”. It has advanced the integrated development of education, science and technology, and talent cultivation, striving to establish a high-level international talent hub. By fostering outstanding individuals who possess national identity, social responsibility, and comprehensive competencies, Macao injects sustained vitality into the development of the Guangdong–Hong Kong–Macao Greater Bay Area and contributes to the nation’s goal of building an education center of global influence.

As the core nexus of the talent cultivation system, higher education bears the mission of knowledge transmission, scientific research, social service, and cultural innovation. It is not only a key pillar in the educational ecosystem but also serves as a key front in the national talent strategy. Today, the connotation of higher education is expanding from the traditional transmission of knowledge to innovation-driven leadership. It has evolved into a critical stage for shaping values, broadening international horizons, and cultivating well-rounded characters, demonstrating an increasingly important role in the advancement of human civilization. Macao has consistently placed patriotic education and education grounded in love for the nation and Macao at its core, deepening national identity education and laying a solid foundation for the enduring implementation of the “One Country, Two Systems” principle.

For forty-five years, the melodies of learning have never ceased, and the commitment to cultivating virtue and nurturing talent has remained steadfast. The intellectual lineage of City University of Macau can be traced back to the University of East Asia, founded in 1981. Following its renaming in 2011, the University formally embarked upon a new stage of leapfrog development characterized by “Rename, Restructure, Transform, Upgrade”. As one of the five comprehensive universities in Macao authorized to offer full-cycle programs at bachelor’s, master’s, and doctoral levels, the University has consistently remained rooted in Macao and served the Greater Bay Area, dedicating itself to the cultivation of application-oriented and practical professionals, and continuously providing intellectual support for urban development and regional progress. In recent years, the University’s institutional strength has steadily advanced. It has been ranked in the range of 601–800 in the Times Higher Education World University Rankings 2026. The disciplines of “Social Sciences, General” and “Engineering” have successfully entered the top 1% globally in the Essential Science Indicators (ESI) database by Clarivate, demonstrating distinctive strengths in the humanities, social sciences, and engineering. The Tourism Management programs, spanning bachelor’s to doctoral levels, have all obtained the UN Tourism TedQual Certification. Furthermore, the discipline of Hospitality & Tourism Management was ranked 37th globally in the ShanghaiRanking Global Ranking of Academic Subjects 2025, further highlighting the University’s distinctive disciplinary advantages.

Time passes swiftly, and the fruits of perseverance are gradually realized. Since its establishment in 1981, the University has consistently upheld the motto “Virtue, Knowledge, Practice”, actively responding to the call of national and regional development, seizing opportunities amid the tides of the times, and cultivating a large number

of outstanding talents for the nation. On the occasion of this anniversary celebration, all faculty members and students of City University of Macau express their gratitude: to Dr. Wong King Keung, Dr. Edward Woo Pak Hay, and Dr. Peter Yuk Lun Eng, the three founders whose foresight laid a solid foundation for the University; to successive University leaders whose vision and dedication guided its continuous advancement; to the Macao SAR Government and all sectors of society for their thoughtful care and strong support in guiding its development; and to all faculty and staff whose diligence and commitment have cultivated academic excellence on Macao’s fertile ground.

Driven by innovation and committed to responsibility, City University of Macau has, over forty-five years of continued development, remained rooted in Macao’s distinctive context while contributing unique Macao-based intellectual momentum to the nation’s modernization process. In response to societal demand for “lifelong learning and continuing education”, the University established the International Training and Testing Centre, actively exploring innovative and efficient teaching models, systematically optimizing the layout of distinctive disciplines, and offering in-service and professional training programs aligned with industry needs, thereby laying a solid foundation for the development of a lifelong education system. At the same time, the University has broken through traditional disciplinary boundaries by establishing the Honours Class and specialized programs such as the “Fang Class”, forming a progressive and intensive talent development system. Focusing on frontier academic fields, it promotes specialized research and adopts a cultivation model characterized by deep integration of industry, academia, research, and application, with the aim of nurturing top innovative talents capable of addressing complex future challenges. Facing the significant historical opportunity presented by the integrated development of higher education in the Guangdong–Hong Kong–Macao Greater Bay Area, the University plans to establish a campus in Hengqin, creating a new model of cross-border educational cooperation and jointly building a first-class higher education ecosystem in the Greater Bay Area, thereby cultivating more outstanding young talents for the nation and Macao who possess both national commitment and devotion to Macao.

The mission of “Serving Macao, Integrating into the Greater Bay Area, Engaging the World” has consistently guided every stage of the University’s development. The University is committed to constructing an educational system that integrates Macao’s characteristics, Chinese culture, and an international outlook. Supported by big data technologies, it advances new developments in the humanities and social sciences and cultivates application-oriented talents with both professional competence and practical capability for Macao, the Greater Bay Area, and the nation. In response to Macao’s “1+4” appropriately diversified development strategy and the opportunities arising from the development of the Cooperation Zone, the Faculty of Health and Wellness integrates multidimensional professional resources across physical, psychological, and social domains, deepens teaching and research in health and wellbeing, promotes sustainable industry development

through government–university collaboration, and cultivates urgently needed professionals for the health and wellness sector. City University of Macau continues to align itself with the educational development directions of the nation and the Macao SAR Government, steadily advancing towards the goal of becoming a distinguished comprehensive university characterized by “Macao Characteristics, China Soul and Global Vision”.

Forty-five years have been marked by perseverance and sustained endeavor. The long scroll of the University’s history bears the imprint of generations of educators whose dedication and commitment have shaped its course. Standing at a new historical juncture, City University of Macau will align itself with the national blueprint of the Fifteenth Five-Year Plan, embed itself deeply in the overall development of the Guangdong–Hong Kong–Macao Greater Bay Area, and align precisely with Macao’s development positioning as “One Centre, One Platform, and One Base”. Upholding its founding mission while maintaining the vigor of innovation, the University will unite its community and strive for excellence. It will pursue distinction in talent cultivation, advance boldly in academic innovation, deepen regional collaboration, and broaden the dimensions of international cooperation, contributing the wisdom of City University of Macau to national development and continuing to write a new chapter of “Virtue and Knowledge in pursuit of far-reaching achievement”.

陳明金先生 Mr. Chan Meng Kam

春潮湧動濠江畔，弦歌不輟慶華章。在此芳菲三月，澳門城市大學迎來四十五周年華誕。從1981年創校之始的初心肇始，到如今扎根澳門、輻射灣區的蓬勃氣象，這四十五年，是城大以“明德、博學、尚行”校訓為精神坐標，在教育強國之路上篤行不怠的奮鬥史，更是城大與澳門現代高等教育同生共長、與國家發展大局同頻共振的成長史。今日之城大，辦學格局日臻完善，學科實力穩步攀升，國際認可度持續提升，各方各面皆已邁入高質量發展的嶄新階段。這一切的成果離不開國家教育部與澳門特區政府的戰略指引，更凝聚著社會賢達與海內外校友的鼎力支持，鐫刻著學校全體教職員工的耕耘身影與萬千學子的逐夢足跡。在此，我謹向所有關懷支持學校發展的各界同仁致以崇高敬意，向全校師生與海內外校友致以最誠摯的祝賀與問候！

溯往追源，初心如磐。城大的血脉中，始終流淌著愛國愛澳的使命基因。1981年，我校前身東亞大學應時代而生，作為澳門開埠四百餘年來首所由中國人創辦的正式大學，它劃破了澳門高等教育的沉寂，為這片土地播下了知識與希望的種子。此後四十餘載，學校歷經改制合併、更名革新的數次轉型，從最初探索國際化辦學的嘗試，到明確“澳門特色、中國靈魂、國際

視野”的辦學定位，每一步跨越都緊扣時代脈搏，每一次成長都扎根國家沃土。澳城大始終錨定育人初心，將學校發展與澳門繁榮、國家興盛緊密相連，使澳城大在澳門高等教育體系中，既沉澱了深厚的歷史底蘊，更煥發著鮮活的時代活力。

立德樹人，本立道生。四十五年櫛風沐雨，愛國愛澳的本質根源從未褪色，服務教育發展的責任擔當愈發堅定。澳城大始終以國家對澳門高校“創造更多科技成果，助力澳門經濟適度多元可持續發展及粵港澳大灣區建設”的殷切囑託為根本遵循，推動愛國情懷融入教育教學全過程。從推行“五位一體”的多元學習模式，到構建“以人文社科為根基、人工智能為引領、交叉融合為特色”的學科生態，學校已培育出數萬兼具家國擔當與國際視野的優秀人才，他們活躍在澳門社會治理、灣區產業升級、國家戰略實施的各個領域，為澳門“一中心、一平台、一基地”建設注入了強勁動能。近年，城市與可持續發展研究院的成立、“樂齡書院”項目的推行，以及在大數據、大健康等領域的科研突破，皆是學校踐行“服務澳門、融入灣區、面向世界”使命的生動實踐。

潮起灣區，風正揚帆。當前，粵港澳大灣區建設向縱深推進，“澳琴國際教育（大學）城”建設藍圖漸展，這既是澳門高等教育發展的歷史機遇，更是城大實現跨越式發展的關鍵窗口。作為學校治理的核心力量，澳城大將主動把握時代賦予的發展機遇，堅守辦學定位，以“一流應用型綜合性大學”為目標，聚焦交叉學科與應用研究，精準對接澳門“1+4”適度多元發展需求；深化融合發展，全力推動琴澳聯動的雙核格局落地，依託橫琴政策與產業優勢，打通科研成果轉化與人才流動的“最後一公里”；廣聚全球資源，持續凝聚社會賢達與校友力量，深化與世界各地高校的合作網絡，讓城大成為澳門連接世界的重要教育橋樑。

四十五年是里程碑，更是新起點。站在這一重要節點上，澳門城市大學將繼續堅守初心，在國家與特區政府的支持下，團結全校師生與海內外校友，以更開放的胸懷擁抱世界，以更務實的作風深耕教育，以更創新的精神勇攀高峰。我們堅信，在國家深入推進教育強國建設的道路上，澳城大必將書寫更加輝煌的篇章，為粵港澳大灣區高質量發展，為實現中華民族偉大復興的中國夢，貢獻源源不斷的智慧與力量！

As the spring tide surges along the shores of the Pearl River and the harmonies of scholarship resonate without cease, the City University of Macau celebrates its 45th anniversary in this radiant month of March. From the founding vision of 1981 to its present stature—firmly rooted in Macao and extending its reach across the Greater Bay Area—these forty-five years tell a story of steadfast dedication. Guided by its motto, “Virtue, Knowledge, Practice”, the University has advanced with unwavering resolve along the path of strengthening education for national development, growing in step with the evolution of modern higher education in Macao and resonating with the broader momentum of the nation. Today, the University’s governance structure is increasingly refined, its academic disciplines steadily strengthened, and its international reputation continuously enhanced. In every respect, it has entered a new era of high-quality development. These achievements are the result of the strategic guidance of the Ministry of Education of the People’s Republic of China and the Macao SAR Government, the enduring support of community leaders and alumni around the world, the tireless dedication of faculty and staff, and the determined aspirations of generations of students. On this distinguished occasion, I extend my highest tribute to all who have supported the University’s progress, and my heartfelt congratulations to our faculty, students, and alumni at home and abroad.

Looking back to our origins, our founding mission remains steadfast. The University’s heritage has always been animated by a deep-rooted commitment to both the nation and Macao. In 1981, our predecessor—the University of East Asia—was established in response to the demands of its time. As the first formally recognized university founded by Chinese individuals in more than four centuries since Macao’s emergence as a port, it broke new ground in the city’s higher education landscape and planted enduring seeds of knowledge and hope. Over the decades that followed, the University underwent restructuring, integration, and renewal, embracing reform and transformation. From its early exploration of internationalized education to the clear articulation of a distinctive positioning—“Macao Characteristics, China Soul, and Global Vision”—each step forward has been aligned with the pulse of the times and grounded in the nation’s enduring foundations. Anchored in its educational mission, the University has consistently linked its development with Macao’s prosperity and the country’s progress. Thus, within Macao’s higher education system, it stands today as an institution enriched by profound historical depth and animated by vibrant contemporary vitality.

To cultivate virtue and shape generations—when the foundation is steadfast, the path forward emerges naturally. Over forty-five years of perseverance through challenge and change, the University’s patriotic devotion to both the nation and Macao has never diminished; rather, its sense of responsibility in advancing education has grown ever more resolute. The City University of Macau has consistently taken as its fundamental compass the nation’s earnest charge to Macao’s universities: to

create greater scientific and technological achievements, to support the appropriately diversified and sustainable development of Macao’s economy, and to contribute meaningfully to the construction of the Guangdong–Hong Kong–Macao Greater Bay Area. Patriotic commitment is not merely affirmed—it is woven into every stage of education and learning. From implementing an innovative “five-in-one” diversified learning model to cultivating a disciplinary ecosystem rooted in the humanities and social sciences, led by artificial intelligence, and distinguished by interdisciplinary integration, the University has nurtured tens of thousands of graduates who combine a deep sense of national responsibility with a confident global outlook. They are active in Macao’s governance, in the industrial transformation of the Greater Bay Area, and in the implementation of national strategies—injecting sustained momentum into Macao’s development as “One Centre, One Platform, and One Base.” The establishment of the Institute for Urban and Sustainable Development, the advancement of the “Academy for Seniors”, and research breakthroughs in big data and health sciences stand as vivid manifestations of the University’s mission to serve Macao, integrate into the Greater Bay Area, engage the world.

As the Greater Bay Area rises with renewed dynamism and favorable winds fill our sails, unprecedented opportunities unfold. With the deepening implementation of the Greater Bay Area strategy and the progressive realization of the “Macao–Hengqin International Education (University) City” blueprint, Macao’s higher education stands at a historic crossroads—and the University at a decisive window for transformative growth. Embracing this moment, the City University of Macau will remain anchored in its mission to become a first-class applied comprehensive university. It will sharpen its focus on interdisciplinary excellence and applied research, align precisely with Macao’s “1+4” diversified development strategy, accelerate the dual-core synergy between Macao and Hengqin, harness Hengqin’s policy and industrial strengths, and bridge the final mile from innovation to impact. It will continue to mobilize global resources, unite the strength of community leaders and alumni, and expand its international partnerships—positioning itself as a vital educational bridge connecting Macao with the world.

Forty-five years mark a milestone—yet they signal an even greater beginning. At this pivotal juncture, the City University of Macau will remain true to its founding purpose. With the steadfast support of the nation and the Macao SAR Government, and in unity with faculty, students, and alumni worldwide, we will embrace the world with broader vision, cultivate education with deeper commitment, and pursue excellence with bolder innovation. We are confident that, as the nation advances towards building a world-leading educational power, the City University of Macau will write an even more illustrious chapter—contributing enduring wisdom and strength to the high-quality development of the Greater Bay Area and to the realization of the Chinese Dream of national rejuvenation.

This year marks a journey of educational legacy spanning four-and-a-half decades and a new aspiration to pioneer an innovative path for the future. At this pivotal moment, the CityU community reflects on our past achievements and charts the course ahead with deep gratitude. The University remains steadfast in its mission to serve the nation, integrate into the Guangdong-Hong Kong-Macao Greater Bay Area (Greater Bay Area) and support local development. It aligns with the strategy for integrating the development of education, science and technology and talent, responds to Macao's "1+4" moderate economic diversification strategy and the needs of the Hengqin-Macao integration. A magnificent journey from founding, reform, to renewal and excellence. CityU community traces its roots to the University of East Asia, carrying forward the original aspiration of its founders and countless predecessors to serve the country through education. Grounded in the value foundation of "Macao Characteristics, China Soul, and Global Vision", and with the mission of "serving Macao, integrating into the Greater Bay Area, and engaging the world", CityU Macau has contributed its wisdom to Macao's moderately diversified economic development and the development of the Greater Bay Area.

Today, CityU Macau has evolved into a comprehensive university, home to nearly 13,000 students, defined by distinctive academic strengths, and recognized in prestigious international rankings—a steadfast pillar of the local higher education landscape.

A stature of academic strength and robust contribution to Macao's diversified and innovative development. To support primary and secondary schools, CityU Macau has developed a personalized learning cloud platform to precisely enhance teaching. In response to an aging population, it has founded the Academy for Seniors and interdisciplinary laboratories, independently developed emotionally interactive companion robots and worked with social service organizations to transform research outcomes into precision health practices. Additionally, the University builds a robust cross-regional

industry-academia-research collaboration networks, working closely with leading enterprises and research hospitals to drive innovations that benefit the Greater Bay Area, providing strong support for local moderate economic diversification and technological self-reliance.

CityU Macau has established a comprehensive general education curriculum that integrates national identity, cultural heritage, and cutting-edge topics such as AI, creating an all-rounded platform that equally emphasizes knowledge and moral character, technology and humanities. CityU Macau champions learning through competition; our students have won gold medals in national-level innovation, entrepreneurship, and academic competitions, and have demonstrated excellence in artistic performances, fully showcasing the international competitiveness of its talent cultivation and academic strengths. In addition, the establishment of the Ung Choi Kun Entrepreneurship and Career Centre (ECC) has created a full-spectrum innovation and entrepreneurship support system integrating "incubation, guidance and networking" services, empowering student growth through practical experience. By organizing campus activities encompassing patriotic education, cultural and

physical arts, and academic innovation, CityU Macau fosters a diverse, inclusive, positive, and progressive campus culture, helping students develop holistically.

Integration into Hengqin-Macao development, forging a new platform for regional innovation cooperation. As an active integrated part of the educational integration of the Greater Bay Area, it jointly develops academic subjects and shares resources with other universities in the region, serving as a vital link for synergistic growth. Concurrently, the University has established the Institute for Advanced Research in the Guangdong-Macao In-Depth Cooperation Zone in Hengqin. This institute focuses on scientific innovation and the translation of research outcomes, strengthens talent cultivation and think tank services, and integrates resources to expand regional and international collaboration, thereby promoting more sustainable development of Hengqin and Macao.

Education is based on a century-long foundation. After 45 years of dedicated services, CityU Macau has grown fully-fledged to lead on its own. This journey would not have been possible without the leadership of the nation and the Macao SAR Government, the support from all sectors of society, and most importantly, the dedication of every member of the CityU community. The 45th anniversary is a milestone, but more importantly, a new starting point. Facing the digital era, CityU Macau will embrace an open, pragmatic, and innovative approach to building itself into an outstanding comprehensive university and a top-notch hub for globally competent talents, a platform for cultural heritage and exchange, and a key force driving regional technological innovation and high-quality development, thereby honoring the selfless dedication and expectations of its founders, and continuing to write the next chapter of CityU excellence.

Introduction

澳門城市大學前身為成立於1981年的澳門東亞大學，是澳門開埠四百多年來第一所由中國人創辦的正式大學，開啟了澳門華人主辦高等教育的先河。1988年，澳門東亞大學開始進行體制調整，後改制為公立澳門大學、澳門理工學院及私立東亞公開學院。1992年，東亞公開學院與葡萄牙國立公開大學聯合組建新型大學，定名為亞洲（澳門）國際公開大學。2010年9月，陳明金先生接辦該校，並出任大學校董會主席；2011年2月，學校正式更名為澳門城市大學（葡文名稱：Universidade da Cidade de Macau，英文名稱：City University of Macau），邁入全新發展階段。

自陳明金先生接辦以來，學校積極落實“更名、改制、轉型、升級”四大發展戰略，深耕“城市大學”核心品牌，聚焦城市文化脈絡、產業肌理、社會結構與發展戰略的研究，將大學發展規劃與澳門及區域發展趨勢深度融合，生動踐行“根植澳門、服務區域”的辦學初心與使命擔當。學校凝練人文、藝術、商學、金融、新工科及社會科學六大學科特色，堅持走都會大學辦學之路，深度融入澳門城市生活。秉持“服務澳門、融入灣區、面向世界”的社會責任與辦學使命，恪守“明德、博學、尚行”的校訓精神，在粵港澳大灣區高等教育融合發展的時代背景下，專注培養澳門及區域急需的應用型、實務型高素質人才，持續為城市建設與社會進步提供堅實智力支撐。

今年恰逢澳門城市大學四十五周年校慶，這既是學校發展史上的重要里程碑，亦是開啟新五年規劃、謀求高質量發展的關鍵起點。一直以來，學校持續推進校院兩級管理體制改革，有效落實學院辦學主體責任；2015年遷回原校址辦學後，全力建設人文文化、數字化的現代化校園，更好適應多元人才培養需求。面向未來，學校將以四十五周年校慶為契機，以更高標準推進高質素師資梯隊建設，進一步凝練課程與學科特色，構建具有重要影響力的研究板塊，持續優化學術與行政管理制度，深化教育國際化進程，強化面向澳門社會的服務能力。始終堅持以提升學生素質為核心宗旨，立足澳門、服務澳門，為增強本澳青年競爭力、創造向上流動機會奠定堅實基礎，腳踏實地、孜孜以求，努力將學校建設成為實力雄厚、特色鮮明的卓越綜合性大學，為澳門繁榮穩定與國家發展貢獻更大力量。

大學簡介

Introduction

The predecessor of City University of Macau was the University of East Asia, established in 1981. It was the first formal university founded by Chinese individuals in Macao in more than four hundred years since the opening of the port, marking the beginning of Chinese-led higher education in Macao. In 1988, the University of East Asia underwent institutional restructuring and was reorganized into the public University of Macau, the Macao Polytechnic Institute, and the private University of East Asia Open College. In 1992, the University of East Asia Open College jointly established a new-type university with Universidade Aberta of Portugal, which was named Asia (Macao) International Open University. In September 2010, Mr. Chan Meng Kam assumed responsibility for the institution and became Chairman of the Board of Trustees. In February 2011, the University was officially renamed City University of Macau (Portuguese name: Universidade da Cidade de Macau; English name: City University of Macau), entering a new stage of development.

Since Mr. Chan Meng Kam assumed leadership, the University has actively implemented the major development strategies of “Rename, Restructure, Transform, and Upgrade”. It has cultivated the core brand identity of a “City University”, focusing on research into urban cultural contexts, industrial structures, social composition, and development strategies. The University has closely integrated its development planning with the development trends of Macao and the wider region, fully embodying its founding mission of being “rooted in Macao and serving the region.” The University has consolidated six distinctive disciplinary strengths—Humanities, Arts, Business, Finance, New Engineering, and Social Sciences—and adheres to the path of a metropolitan university deeply integrated into Macao’s urban life. Upholding its social responsibility and institutional mission of “Serving Macao, Integrating into the Greater Bay Area, and Engaging the World,” and guided by its motto “Virtue, Knowledge, Practice”, the University focuses on cultivating high-quality, application-oriented and practical professionals urgently needed by Macao and the region. Within the broader context of higher education integration in the Guangdong–Hong Kong–Macao Greater Bay Area, it continues to provide strong intellectual support for urban development and social advancement.

City University of Macau currently enrolls nearly 13,000 students. It comprises 11 academic units: the Faculty of Business; Faculty of Data Science; Faculty of Finance; Faculty of Humanities and Social Sciences; Faculty of Health and Wellness; Faculty of Innovation and Design; Faculty of International Tourism and Management; School of Education; School of Law; Institute for Research on Portuguese-Speaking Countries; and the Institute for Urban and Sustainable Development. The University offers 11 bachelor’s degree programs, 22 master’s degree programs, and 15 doctoral degree programs—amounting to nearly 50 programs delivered in Chinese and English—forming a comprehensive three-tier talent cultivation system at undergraduate, master’s, and doctoral levels. It is one of the five comprehensive universities in Macao that offers full-level academic programs across all degree levels. The University has innovatively implemented a diversified learning model integrating International

Learning, Experiential Learning, Cross-cultural Learning, Peer Learning, and Value-added Learning, enabling students to enhance their overall competencies and global competitiveness.

In recent years, the University’s academic influence has continued to rise. It was ranked in the range of 601–800 in the Times Higher Education World University Rankings 2026 and placed 433rd in the QS Asia University Rankings 2026, achieving breakthroughs in both global and regional authoritative rankings. The disciplines of “Social Sciences, General” and “Engineering” entered the top 1% globally in the Essential Science Indicators (ESI) database by Clarivate, demonstrating strong academic capability and distinctive strengths in the humanities, social sciences, and engineering. The University has also achieved significant results in international program accreditation. The doctoral, master’s, and bachelor’s programs in International Tourism Management have all obtained the UN Tourism TedQual Certification, making them the only programs in this field in Macao to receive full-level accreditation. In addition, both “Hospitality & Tourism Management” and “Economics” were included in the ShanghaiRanking Global Ranking of Academic Subjects 2025. “Hospitality & Tourism Management” was ranked 37th globally, while “Economics” was placed in the range of 301–400, reflecting international recognition of the University’s disciplinary development standards.

The University’s research capacity has experienced rapid development. It currently hosts 23 distinctive research institutes, research centers, and specialized laboratories. Among them, the “Sino-Portugal Belt and Road Joint Laboratory on Science of Cultural Heritage Conservation”, approved by the Ministry of Science and Technology of China, is the first national-level “Belt and Road” joint laboratory established in the Hong Kong and Macao regions. In collaboration with international teams from Soochow University and the University of Évora (Portugal), the Laboratory conducts innovative cooperative research in areas including cultural heritage conservation and marine science. The University has achieved remarkable research outcomes. Its scholarly publications have attained comprehensive coverage across major international core

academic indexing systems, including SSCI, SCI, A&HCI, EI, CSSCI, and TSSCI. Research teams have cumulatively undertaken more than 200 commissioned and funded projects from institutions such as the National Natural Science Foundation of China, the National Arts Fund of China, the Macao Science and Technology Development Fund, and the Office of the Basic Law Committee of the Standing Committee of the National People’s Congress, among others. These projects span multiple disciplines and demonstrate the University’s distinctive strengths in the integration of humanities and sciences and interdisciplinary research and development. In response to the integration of Hengqin and Macao and the Macao SAR Government’s policy on appropriately diversified economic development, the University benchmarks Macao’s four major emerging industries. It has established a matrix of joint research and development institutions in collaboration with numerous well-known enterprises and financial institutions, set up practical teaching bases and integrated innovation and entrepreneurship service centers, deepened industry–academia–research collaboration, and promoted the transformation and application of research achievements.

To meet societal demand for lifelong education and continuing professional development, the University has established the International Training and Testing Centre. It actively explores high-quality and efficient new teaching models, optimizes the layout of distinctive disciplines, and offers in-service and professional training programs aligned with societal needs, thereby advancing the implementation of lifelong education. The University is also one of Macao’s most comprehensive providers of international recognized English-language examinations, administering TOEIC, TOEFL, IELTS, SAT, and the College English Test (CET-4 and CET-6), offering convenient language proficiency certification services to Macao residents and students.

The University places great importance on the development of its academic and management teams, recruiting outstanding scholars and administrators globally to form a diversified and international talent structure. Current members of the senior management team possess higher education management experience both domestically and internationally. Academic leaders across disciplines come from Mainland China, Taiwan, Hong Kong, and Macao, as well as from the United States, the United Kingdom, France, Australia, Portugal, Singapore, and other countries and regions. 93% of teaching staff hold doctoral degrees from world-renowned universities, and distinguished scholars from home and abroad are appointed as specially invited professors, ensuring strong support for teaching and research quality.

The University continues to expand its international cooperation network. It has established stable cooperation mechanisms with more than ten international professional organizations, including the United Nations World Tourism Organization (UN Tourism) and the United Nations Educational, Scientific and Cultural Organization (UNESCO). It maintains multi-level and comprehensive cooperation with over 200 well-known universities and institutions worldwide, providing students with international learning and exchange platforms that broaden their global

perspectives and enhance cross-cultural communication competencies.

Seizing the historic opportunity presented by the integrated development of higher education in the Guangdong–Hong Kong–Macao Greater Bay Area, the University adheres to the development direction of “seizing opportunities, leveraging strengths, rooted in the region, and oriented towards the world”. Closely aligned with national and regional talent demands, it is committed to cultivating more Macao youth who are patriotic and devoted to Macao, combining a strong sense of national identity with an international outlook. It continues to strengthen industry–academia–research collaboration with universities in the Greater Bay Area and deepen educational and cultural exchanges with Portuguese-speaking countries, advancing steadily towards becoming a distinguished comprehensive university with international competitiveness.

This year marks the 45th anniversary of City University of Macau, representing both an important milestone in its development history and a crucial starting point for a new five-year strategic plan and the pursuit of high-quality development. The University has consistently advanced reforms in its two-tier governance system at both the institutional and faculty levels, effectively strengthening the principal responsibilities of academic units. Since returning to its original campus site in 2015, it has committed itself to building a human-centered and digitally enabled modern campus, better responding to diversified talent cultivation needs. Looking ahead, the University will take the 45th anniversary as an opportunity to promote the construction of a high-quality academic staff echelon to even higher standards, further refine program and disciplinary strengths, establish research clusters of significant influence, continuously optimize academic and administrative management systems, deepen the process of educational internationalization, and enhance its service capacity for Macao society. Upholding the fundamental principle of improving student quality, it will remain rooted in Macao and dedicated to serving Macao, laying a solid foundation for enhancing the competitiveness of local youth and creating opportunities for upward mobility. With diligence and perseverance, it strives to develop into a distinguished comprehensive university of strong capacity and distinctive character, contributing greater strength to Macao’s prosperity and stability and to national development.

A celebração de uma efeméride é uma oportunidade para que possamos reconhecer o passado e perspetivar o futuro.

Quando se trata de uma instituição pública, esse momento é também uma evocação do percurso feito no contexto em que aquela se insere.

No caso da Universidade Cidade de Macau os 45 anos da sua fundação estão indissociavelmente ligados a região de Macau e à sua crónica de cruzamento de Histórias, vivências e partilhas.

O futuro constrói-se com a audácia e a aprendizagem do passado. A Universidade é, em si mesmo, e por definição um espaço de edificação de Conhecimento, de Pessoas, de Futuro.

Pela sua história de 45 anos a Universidade Cidade de Macau está particularmente bem posicionada para cumprir o seu desígnio desenhado no seu motto: “Virtude, Conhecimento, Prática”, promovendo o conhecimento e, por essa via, o desenvolvimento da sua comunidade discente, preparando-a para a sua integração no projeto mais vasto de crescimento pessoal e de desenvolvimento coletivo.

Enquanto Embaixador de Portugal em Pequim, aprez-me registar o empenho e colaboração da Universidade Cidade de Macau com instituições de ensino superior e de investigação portuguesas e a colaboração de docentes portugueses numa feliz conjugação dos interesses de todos, numa celebração do passado e de uma projeção do futuro, no contexto do desejável aprofundamento de uma relação virtuosa entre a República Popular da China e Portugal (e com os países de língua portuguesa).

Nesta data é com subida honra e orgulho que, na qualidade de Embaixador de Portugal na República Popular da China saúdo e assinalo os 45 anos da Universidade Cidade de Macau.

《澳門城市大學四十五周年校庆紀念特刊》題辭

親愛的澳門城市大學全體師生員工、海內外校友及社會各界友人：

值此澳門城市大學建校四十五周年華誕之際，我謹致以最誠摯、最熱烈的祝賀！

四十五年來，澳門城市大學始終與時代同頻、與澳門同行，在傳承中發展，在改革中奮進，逐步成長為一所具有活力、特色與影響力的高等學府。學校堅持立德樹人根本任務，積極推進人才培養、科學研究、社會服務與對外交流，形成了良好的辦學格局，取得了令人欣慰的發展成績。這些成績的取得，離不開全體師生員工的團結拼搏，離不開廣大校友的深情支持，也離不開國家和澳門特區政府以及社會各界的關心厚愛。

作為長期從事計算機科學與工程研究的科技工作者，我深知高等教育是科技創新的重要源頭，也是培育時代新人的關鍵陣地。尤其在今天，以人工智能、大數據、算力網絡等為代表的新技术快速演進，正在深刻影響經濟社會發展，也對大學的辦學理念、育人方式和科研組織提出了新的更高要求。面對這一趨勢，高校不僅要注重知識傳授，更要注重能力塑造；不僅要夯實學術基礎，更要強化創新意識和實踐本領；不僅要立足當下，更要着眼未來。

我期待澳門城市大學繼續發揚開放包容、求實進取的精神，準確把握新一輪科技革命和產業變革帶來的歷史機遇，進一步優化學科布局，強化交叉融合，推動教育、科技、人才一體發展；進一步深化與海內外高水平大學、科研機構和行業企業的合作，不斷提升協同創新能力；進一步引導青年學生把個人理想融入國家發展和澳門建設，在學習中增長見識，在實踐中錘煉本領，在創新中成就未來。

四十五周年，既是回望來路的重要節點，也是再啟新程的嶄新起點。相信在全體城大人的共同努力下，澳門城市大學一定能夠繼續書寫高質量發展的新篇章，培養更多德才兼備、胸懷家國、放眼世界的優秀人才，為澳門繁榮穩定、灣區融合發展和國家現代化建設作出新的更大貢獻。

衷心祝願澳門城市大學校慶圓滿成功，事業蒸蒸日上，再創輝煌！！

Academy of Engineering

亲爱的澳门城市大学的全体师生员工：

值此澳门城市大学四十五周年校庆之际，我谨向贵校致以最热烈的祝贺和最美好的祝愿！城大砥砺前行四十五载，在国家和特区政府及社会各界的关心与支持下，取得了令人瞩目的发展成就，这充分展现了城大人的智慧与担当。

作为一名长期从事高性能计算和存储系统研究的学者，我深知数据与算力是支撑现代科学研究、技术创新和社会发展的重要基石。当前，人类社会正加速迈入大数据时代，海量数据的生成、处理、存储和分析，对计算基础设施提出了前所未有的挑战。而高性能计算系统和高效可靠的存储技术，正是应对这些挑战的关键。

澳门城市大学在信息技术领域的投入与发展，特别是对大数据、人工智能等前沿技术的探索，令人印象深刻。我希望城大能够继续深耕这些领域，加强对存储系统、并行计算、分布式系统等核心技术的研发，为澳门乃至粤港澳大湾区的数据密集型应用提供坚实的基础支撑。同时，也要注重培养学生的工程实践能力，让他们不仅掌握理论知识，更能将理论应用于实际，解决复杂的工程问题。

教育的本质在于传承知识、启迪智慧、培养人才。我期望澳门城市大学能够继续优化课程设置，将最前沿的科研成果融入教学内容，让学生在学习过程中接触到行业发展的最新动态。更要鼓励学生积极参与科研项目，在实践中提升创新能力和解决实际问题的能力。我相信，通过这样的努力，城大定能培养出更多高素质的专业人才，为推动科技进步和经济社会发展贡献智慧和力量。

四十五年风雨兼程，四十五年春华秋实。展望未来，我坚信澳门城市大学定能抓住历史机遇，以更加昂扬的姿态，在教学、科研、社会服务等方面取得新的突破，成为国际一流的现代化大学。

恭祝澳门城市大学校庆成功，前程似锦！

亲爱的澳门城市大学各位同仁、同学们：

欣悉澳门城市大学迎来四十五周年校庆，我倍感荣幸，谨借此机会，向城大致以热烈的祝贺！回首城大四十五载的奋斗征程，可谓披荆斩棘、硕果累累，这离不开各界人士的大力支持。

四十五载春秋，城大弦歌不辍，人才辈出，为澳门乃至国家的发展作出了积极贡献。从最初的萌芽到如今的枝繁叶茂，城大始终秉承教育人的初心，在学术研究、人才培养和社会服务等领域取得了令人瞩目的成就。这些成就的取得，是全体城大人踔厉奋发、赓续奋斗的生动写照，也为城大未来的发展奠定了坚实的基础。

当前，我们所处的数字世界正遭遇着前所未有的复杂挑战。从国家层面的关键基础设施安全保障，到企业运营过程中的数据保护，再到个人日常生活里的信息隐私维护，网络安全已经成为全社会共同聚焦的核心问题。身为一名长期投身于网络空间安全研究的教育与科技工作者，我深切明白在数字化浪潮席卷全球的当下，信息安全对于国家发展、社会稳定乃至个人幸福的重要意义。大学，作为培育国家栋梁之才的摇篮，不仅要传授知识，更要培育学生的网络安全意识、法治观念以及道德伦理，构建起数字时代的“防火墙”。澳门城市大学凭借其在粤港澳大湾区的独特区位优势，以及在信息技术领域的积极探索，使其在培养具备数字安全素养的人才、开展相关科学研究方面承担着重要的使命。

我衷心希望澳门城市大学能够继续加强在数字领域的前瞻性布局，整合优势资源，培养更多具备综合能力、能够应对未来挑战的复合型人才。要注重理论与实践相结合，让学生在掌握扎实的专业知识的同时，更具备应对复杂数字安全挑战的全局思维和实战能力。同时，也要积极开展数字治理领域的国际交流与合作，借鉴先进经验，共同应对全球性数字安全威胁。

四十五年，风华正茂。我坚信，澳门城市大学在未来的发展中，一定能继续发挥自身优势，在数字安全与治理领域取得更加卓越的成就，为国家数字经济发展和澳门特区繁荣稳定贡献更大的力量。

祝澳门城市大学校庆运昌隆，桃李芬芳！

在我們齊聚一堂，共同慶祝大學成立四十五周年之際，我深感榮幸能夠參與這段非凡旅程的一部分。四十五年前，創辦人懷抱著願景，期望建立一座知識、創新與機會的燈塔。今天，這一願景已經成長為一個充滿活力的學術共同體——由學者、教育者、學生與校友組成，他們以才華與奉獻不斷影響澳門、大灣區、中國及世界。

這一里程碑不僅是對歲月的慶祝，更是對影響力的肯定。幾十年來，我們的大學培育了一代又一代的英才，推動了具影響力的研究，並孕育了服務社會的精神，影響遠遠超越校園。無論是在課堂、實驗室，還是在社區，每一項成就都匯聚成我們引以為傲的卓越傳統。

在緬懷過去的同時，我們也滿懷新的使命展望未來。當今時代的挑戰需要創造力、韌性與合作——這些正是我們大學的核心特質。憑藉教職員工的持續投入、學生的熱情，以及校友與合作夥伴的支持，我堅信我們故事的下一個篇章將更加鼓舞人心。

在這四十五周年的慶典上，讓我們不僅慶祝已取得的成就，更要擁抱前方無限的可能。我們將繼續攜手建設大學，使其成為知識的支柱、創新的催化劑，以及夢想生根發芽的共同體。
